

MBP tag Mouse Monoclonal Antibody

Cat. Number: UM3008
For Research Only

Description:

Synonyms:	MBP tag
Immunogen:	Full-length MBP protein
Specificity:	All specials
Host Species:	mouse
Ig Isotype:	Mouse IgG1
Purification:	Protein A or G purified
Applications:	WB (1: 1000-1: 10000)
Band size:	

Formulation and Storage:

Formulation:	Liquid
Storage:	-20°C or lower

Background:

Maltose binding protein (MBP) is a useful affinity tag that can increase the expression level and solubility of the MBP tagged protein. It promotes proper folding of the fusion protein, and it can be also used to prevent an insoluble form. MBP-tag antibody is suitable for detecting fusion proteins that contain a MBP-tag.
